AGUINALDO IS WARNED

Rebel Philippine Chief Is Causing Much Trouble.

IF HE FAILS TO SUBMIT BE WILL BE ATTACKED.

Washington, Sept. 8—Special—It is stated that a message from Gen. Otis, who commands the American forces at Manila, has been received by the president in which the general announces that he has been compelled to order Aguinaldo to retire from the suburbs of the city within twenty-four hours or be driven out. This indicates serious trouble with the Philipinos, and if hostilities occur between them and the American forces the government must send at least fifty thousand more men to Otis. Recent reports from Manila show that Aguinaldo has assumed a very aggressive attitude.

Spaniards Demand Duties.

Washington, Sept. 8—Special—Much surprise and not a little indignation is expressed here at the refusal of the Spanish officers at Havana to admit supplies for the reconcentrados without the payment of duties. It had been supposed that Spanish authority on the island had been superseded, but this appears to have been a mistake. The Spanish authorities in Havana have taken the position that the sovereignty of Spain exists in Cuba until the peace treaty is signed. They insist now, as they did before the war opened, that any supplies to feed the starving that the United States may desire to send to Havana shall be distributed through their own officers. Government officials claim that this contention is an absurd one, and no duties will be paid except, perhaps, under protest with a guarantee of their return after the issues between Spain and the United States have been settled. The idea of victors in a war paying tribute to the vanquished is scoffed at here.

Spanish Bad Faith.

Washington, Sept. 8—Special—The destruction of the guns and military stores by the Spaniards at San Juan, Porto Rico, is a grave breach of faith on the part of the officers which may get them into serious trouble. The property destroyed belongs to the United States, and its destruction was an act of war. If condoned by the Madrid government the act will form the basis of a claim for indemnity before the peace commission which Spain will not be able to set aside.

Drowned While Bathing.

Montauk, Sept. 8—Special—The body of Thos. Wheeler, son of Gen. Wheeler, was taken from the water this morning. The young man drowned yesterday while bathing. Lient. Kirk, of the First Ohio, who was bathing with Wheeler, was also drowned.

Gen. Wheeler is bowed down with grief over the death of his son. He will be relieved from duty today or tomorrow. It is believed a third man was drowned with Wheeler and Kirkpatrick.

The Gazette received the following dispatch this morning:
Tangier, Sept. 8—[Special]—It is believed the sultan of Morocco is morally ill.

Doubtless the dispatch, as sent from Tangier, used the word "morally" instead of "morally," although he told the truth inadvertently by his error.

CLARK-OSGOOD DIES IN CAMP

Volunteer from Beloit Expires at Jacksonville Yesterday.

Word reached this city last evening announcing the death of Clark F. Osgood, of Afton, in Jacksonville, Fla. Deceased was a member of Co. E, Beloit, and well known in this city. George Ferris being his grandfather. While attending the Baptist convention in Clinton this week Mrs. Osgood was notified by wire of the dangerous illness of her son. She at once made all necessary preparations and started for the south, but a dispatch soon reached her announcing the death of her son, and she returned.
Deceased was a son of George B. Osgood, of Afton, and was highly esteemed and loved by all who knew him.
The interment will in all probability take place in Afton, although no definite arrangements have as yet been made.

SAYS HE IS NO VAGRANT.

Wilkie Denver Is Indignant at the Accusation Placed Against Him.

Wilkie Denver, of this city, was before the municipal court this morning charged with being a vagrant. Mr. Denver was very indignant when asked by the court to plead guilty or not guilty. He says that he is far from being a vagrant, and so he pleaded not guilty and his case was set for next Saturday at 9 o'clock. He is now in jail.

According to the police, Denver is nothing less than a public nuisance. He causes the police no end of trouble in spite of the fact that he just got out of jail after serving a long sentence for adultery.

THEY SAVED THEIR MONEY

Two Janesville Soldiers Who Remembered Their Parents.

Charles Kastner, of this city, is a private in Co. E, of Beloit, and is now on his way home with the First Wisconsin regiment. George Kastner, of this city, states that his son has never failed to send him \$10 each pay day since he has enlisted, and that he has been doing this all out of \$13 a month.
Private Miller, of this city, has also saved his money since he has been south, and has made much money in other ways.
The greater portion of the Janesville boys have been writing home for money each month.

Not Found in the Bible.

Probably ninety-nine persons out of one hundred believe that the familiar expression, "Eau sold his birthright for a mess of pottage," is scriptural, but they will look for it in vain in the authorized version. According to Notes and Queries it occurs in the chapter heading of the Geneva version of Genesis, xxv., and it is owing no doubt to the popularity of that version that the phrase has obtained so wide a currency.

NOT MUCH OF A MESS

Miles Says Little About His Trouble With Alger,

THE DISAGREEMENT WILL PROBABLY BE SMOOTHED OVER.

Washington, Sept. 8—Special—Less of a sensation than was expected was produced by Gen. Miles' arrival home. He talked as freely of his disagreements with Secretary Alger as was judicious, and left the impression that these contentions had been greatly exaggerated. That he had a grievance he did not deny, but spoke of it in a frank, manly way, conveying to his interrogator the idea that he felt confident that the secretary would make all due amends as soon as the facts were placed before him in proper form. It is very evident that the general is not in the furious mood in which he has been pictured, and no one looks for a scandal as the result of his disagreement with the war secretary. Mutual explanations such as gentlemen give each other in like situations will smooth matters out.

New York, Sept. 8—Special—Gen. Miles, refuses to say anything more regarding his statement of yesterday. He leaves for Washington this afternoon, and will pay his respects to the president tomorrow.

The Incident Closed.

Washington, Sept. 8—Special—The probability that there would have been interesting developments in the Miles-Alger controversy as soon as Miles reached the city seems to be removed. Alger and the president are said to have agreed that the matter shall be passed over and the only action be taken shall be a private request from the president for Miles to allow the matter to pass without further public comment. In all probability the incident is closed for the present. Alger goes to Michigan tonight.

Affairs in Havana.

Kaiser's Pointed Talk.

Berlin, Sept. 8—Emperor William of Germany, it is announced in a dispatch from Copenhagen, speaking at a banquet there last evening and referring to the prosperous agriculture and industry of Westphalia, touched significantly upon the labor bill to be submitted to the reichstag during the present year. He said it would provide for the imprisonment at hard labor of any one seeking to prevent workmen who are willing to work pursuing their vocation and would also provide for the punishment of those who even incited them to strike. His majesty also expressed the hope that the representatives of the people would support his efforts to protect national labor.

British Gunboats on the Nile.

London, Sept. 8—The dispatch from Khartum announcing that the British gunboats have pushed up the White Nile is regarded as highly significant. The sirdar telegraphed Saturday that the condition of the bank of the Nile made it impossible to utilize the gunboats in the pursuit of Khalifa Abdullah, who had fled toward Kordofan. The only inference, therefore, is that the gunboats have now gone to join hands with Major MacDonald, who is now known to be on his way northward from Uganda, an operation which has long been contemplated by the government.

Revision of Dreyfus Case.

Paris, Sept. 8—The Figaro says the cabinet council just held unanimously agreed upon a revision of the Dreyfus case and directed the minister of justice, M. Sarrien, to take the necessary steps to that end.

The Matin announces the discovery of facts implicating the officers of the general staff, adding that Gen. Zurlinden, the new minister of war, reported the matter to the council and urged the necessity of reforming the intelligence department of the war office, whereupon he was directed to elaborate a project separating the duties of the general staff from those of the intelligence department.

Real Modesty.

Dribbler—"In my opinion, a man who writes an illegible hand does it because he thinks people are willing to puzzle over it. In other words, he is a chunk of conceit." Scribbler—"Not always. Sometimes a man writes illegibly not because he is conceited, but because he is modest." Dribbler—"Modest? What about?" Scribbler—"About his spelling."—Boston Traveler.

PROGRESS MADE IS EXCEEDING SLOW

SOLDIERS OF THE FIRST REGIMENT JOURNEYING HOME.

Trains Are Making Poor Time—Mismanagement At Jacksonville Delayed Their Departure—Discomforts of the Journey Adding to the Sick List—Facetious Mottos.

The journey of the First Regiment from Jacksonville home is attended with much hardship. The trains are making exceedingly slow time, and the crowded condition of cars causes great discomfort to the men, especially those sick or on the convalescent list. Those of the latter class who are riding in sleepers, are doing well, but on all sections yesterday others were found who needed medical attendance, so consequently the sick list is increasing, some new cases having developed during the day. Since leaving Jacksonville patients have been discovered who were smuggled aboard by friends and without the doctors' permission. These patients were under treatment down town, and the surgeons declare should not have been allowed to travel. These patients are the most serious.

Making Slow Progress.

At 6 o'clock last night, twenty-four hours after the start, only 383 miles had been traveled, leaving more than a thousand miles to cover before Milwaukee is reached. The slow time is not only annoying, but is causing much impairment in the health of the troops. Not only are those already ailing suffering, but men who left Jacksonville in good health are beginning to feel the fatigue. In consequence quite a number have been added to the sick list.

There is much complaint among the officers over the manner in which the trains are being handled. It is said that they are manned by small crews and that the rolling stock is old and rusty and unfit for service.

A Badly Managed Start

There was great confusion attending the loading at the camp at Jacksonville. Although scheduled to leave there at 4 o'clock it was 9 o'clock before the last section got away. Even then the trains had not been made up properly and it was necessary to go to the Jacksonville depot to have the Plant system straightened out this middle. It was then found that the cars called for had not been furnished. Instead of having tourist sleepers for the enlisted men the company had furnished twelve day coaches. One-half of the men, therefore, had to sleep in these, though the government contracts provided for better cars. There were also not enough Pullmans. The switching had been so miserable that the sections were all mixed up. Battalions and companies were broken up and instead of having the sick all in one train, the sick cars were scattered about the three sections.

Growing Facetious.

Notwithstanding the discomforts the boys have endured they are in good spirits, and manifest a good sense of humor. They have decorated the cars with all sorts of signs. "Home, Sweet Home," is on one. Others read: "In Scofield We Trust, Wisconsin or Bust." "Hurrah for the Governor and the Work He Did." "We Voted for Scofield and We Are Glad He Did." "Col. Schadel's Immunes—400 sick." "Fitzhugh Lee's Pets."

The reception at home. Mayor Thoroughgood, in obedience to the general sentiment of the community, has issued the following invitation:

In accordance with request made to many citizens, a meeting will be held in the common council room at 7:30 o'clock this evening to consider the advisability of receiving our soldier boys on their arrival home, which is likely to be very soon. The mayor hopes for a liberal response, when this matter can be fully discussed. J. Thoroughgood, Mayor.

A large attendance is confidently expected.

THE FOOTBALL OUTLOOK

Several Games Have Been Arranged For the Coming Season.

The rival football eleven represent the University of Wisconsin and Beloit college will play in Milwaukee, Oct. 29, at the Milwaukee baseball park. The convention has been arranged and for the first time in four years local football enthusiasts will be treated to the "real thing" on the gridiron.

Alvin Kletzsch received word yesterday afternoon that the demands of Milwaukee people for a football game this fall had been granted by the University of Wisconsin. "It is high time," Mr. Kletzsch said, "that Wisconsin has arranged to play a championship game here, and other contests should also be scheduled to be played here. It was all arranged last spring that Michigan and Wisconsin should play here this fall, the details being arranged at the Ann Arbor end by H. J. Killilea, but instead of sending an invitation from Wisconsin for the Michigan team to come to Milwaukee, Killord neglected to even mention it to Capt. Ochsens when he returned to Madison, and it was entirely forgotten until it became too late. I think it would be advisable for the Wisconsin team to play her against Minnesota or Illinois, and the alumni should place a request before the Athletic committee at Madison in so urgent a manner that it would receive recognition.

It would indicate progress for the University of Wisconsin to induce the Carlisle Indians to play a game here early in the season, as by doing so the Wisconsin men could learn the Eastern style of play and the game would attract a tremendous crowd."

Referring to the statements current that the University of Wisconsin and Chicago were patching up their differences, Mr. Kletzsch said: "All overtures for peace should come from Chicago and not from Wisconsin, as Wisconsin was offered the affront after defeating Chicago in last fall's football game, which gave Wisconsin the lead over Chicago in athletics.

METHODISTS IN CONFERENCE

Two Applicants Recommended for Ordination.

The Methodist conference for the Janesville district concluded its session at Orfordville yesterday. About a hundred clergymen were present. The discussions embraced a variety of subjects bearing upon church polity, and affecting church progress. Mr. Bear, of Heart Prairie, and Mr. Dummer, of Lake Mills, were examined with a view to their ordination for the ministry, and a favorable report upon their cases was agreed upon to be submitted to the general conference in Wausau. There was no discussion of the Halsey case, as that matter goes directly to the general conference from the committee of trial. The general opinion of those present was that the charges against the former Janesville pastor would be dropped, through being ignored.

Sunday Afternoon Meetings Have Been a Success—The Treasury Shows a Small Balance On Hand—Plans For the Future Good of the Members.

Much interest was manifested last evening in the annual meeting of the Young Men's Christian Association. President Loomis briefly stated the purpose of the gathering, and a nominating committee, consisting of H. G. Arnold, J. H. Nicholson, and Clarence Beers reported in favor of the election of the following officers for the ensuing year: President—E. E. Loomis. Vice President—Arlie Crawford. Secretary—H. J. Cunningham. Doherty, a young attorney of this city, was nominated by acclamation yesterday afternoon as the democratic candidate for congress for the Seventh district. Would Save the Famous Ships.

Washington, Sept. 8.—It is the desire of the navy department that all vessels that won fame in the late war with Spain shall be kept by the government. The board appointed to consider what disposition should be made of the auxiliary ships bought or chartered during the war is now at work and has already recommended the sale of a number of vessels. The auxiliary coast defense squadron has now disappeared, but there are a number of boats, such as the Gloucester, which, though bought for temporary service, have made lasting reputations, and will remain famous in the annals of the American navy. The department thinks it would be a great misfortune if these vessels should be sold.

IS IT CURABLE?

A Question Often Asked by Those Afflicted with Piles.

Is a strained joint curable? Is local inflammation curable? Of course, if properly treated. So is piles.

People become afflicted with piles and ask some old "chronic" who has always persisted in the wrong treatment and naturally he discourages them by telling them that their case is hopeless.

They in turn discourage others, and thus a disease that can in every case be cured by careful and skillful handling is allowed to sap the energy of thousands who might free themselves of the trouble in a few days.

Pyramid Pile Cure will cure the most aggravated case of hemorrhoids in an astonishingly short time. It relieves the congested parts, reduces the tumors instantly no matter how large, allays the inflammation and stops the itching or itching at once.

Thousands who have resorted to expensive surgical treatment have been cured by the Pyramid Pile Cure—in a number of instances persons who had spent months in a hospital under a pile specialist.

It is a remedy that none need fear to apply even to the most aggravated, swollen and inflamed hemorrhoidal tumors.

If you are afflicted with this stubborn disease you can master it and master it quickly.

This remedy is no longer an experiment, but a medical certainty. It is manufactured by the Pyramid Pile Co. of Marshall, Mich.

Druggists sell it at 50 cents per box. It is becoming the most popular pile cure the country has ever known, and druggists everywhere are ordering it for their customers.

Professor Dietrich Dead. Berlin, Sept. 8.—Prof. Dietrich, chief constructor of the German navy, is dead.

Dr. J. I. Terry, of Trimble, Tenn., in speaking of Chamberlain's Colic, Cholera and Diarrhoea Remedy, says: "It has almost become a necessity in this vicinity." This is the best remedy in the world for colic, cholera morbus, dysentery and diarrhoea, and is recognized as a necessity wherever its great worth and merit become known. No other remedy is so prompt or effectual, or so pleasant to take. Sold by People's Drug Co., E. Milwaukee street.

UNBRIDLED SENSATIONALISM.

Is the glory of the great victory won by the American arms to be dimmed because of the clamor of yellow papers, or will the people see that justice is done? A Washington dispatch says: "Army officers are watching with much concern the effect of all the clamor of the yellow press against the war department, the camps and the army."
"With some of them it is a very serious question as to whether the influence of this hysteria will not so completely demoralize the present volunteer army as to make it impossible to raise another such army in the near future, or make a volunteer army practically useless as a military force, since by the development of arms and military tactics wars are now of short duration."
"The clamor of the sensational newspapers is beginning to bear fruit," said Adjutant General Corbin. "The attempt of a Mississippi regiment to assassinate its colonel is an illustration of the demoralizing influence of this unreasoning clamor."
"Not long since a certain Eastern newspaper headed a tirade on the War Department with 'Shoot the Officers!' The sensational newspapers seem to think that the liberty accorded to the press means license to say anything with regard to the truth and with regard to common decency."
"The sensational newspapers are in part responsible for the hysteria that at present prevails throughout the country over camp life and condition of the soldiers. It is admitted that there is much suffering in the army, but why lay all the blame on the War Department?"
"If this trade of abuse and defamation of reputation continues it is a question in my mind whether it will not end in disorganizing the military forces of the country, and perhaps prove an obstacle in raising another volunteer army if one should suddenly be needed."
"We are already placed in an unenviable light before other nations by what has been said and written of the army and its management. Our soldiers are liable to be rated as babies and our executive officers either as imbeciles or as corrupt."
General Corbin speaks the truth. The American troops have won unparalleled laurels, and are entitled to them. The clamor of the sensational press does an injustice to both officers and soldiers, as the former have shown that they are not imbeciles and the latter have demonstrated that they are not babies.
The people should frown on the yellow newspapers. They are a menace to the country.
The Beloit Free Press says the reason the demagogue refused to nominate

Prof. Harvey for state superintendent, is because he is so deficient in mathematics that he can't figure out how 40 cents worth of silver is equal to 100 cents in gold.

SAYS CAMP IS ALL RIGHT.

Charles W. Mooney, of Company C, First Wisconsin regiment, returned to Milwaukee on a thirty days' sick furlough. He says he saw nothing at Jacksonville camps and hospitals that could justify the published accounts. The nurses did everything they could in the treatment of the fever cases in the hospitals. If the male nurses were inefficient they were soon replaced by skilled female nurses. At Pablo beach especially, Mooney says, the treatment could be spoken of only in terms of commendation. The patients had the best of rations, and the finest wines obtainable were regularly given to the men. Many of the inmates of the hospitals are dying of homesickness, says Private Mooney.

"Oh, consistency thou art a jewel." Some of the men and newspapers that were shouting loudest in calling on the people to stand by the administration, a short time ago, are now making more noise in disseminating advice of the opposite sort. Thinking people, however, are not swayed by every breeze. They have their own ideas, and act on them.

That The Chicago Tribune made a mistake when it charged managing editors just before war was declared, is apparent. The Tribune was for many years an exceptionally reliable paper, but now it is as yellow as any of them.

The democratic howl about "the republican ring" is very threadbare. No ring can run things under the new caucus system. The voters do just as they please, and their will is law.

Capt. Tom J. Rogers, of Beloit, who commanded the Line City volunteer company will remain in service as quartermaster of the hospital department at Jacksonville.

The Milwaukee Sentinel criticizes The Chicago Inter-Ocean for defending the war department. Can anyone guess the reason of The Sentinel's wrath?

Wharton Barker has been nominated for president by the populists. This is all right. The populists naturally want a "barker" to lead them.

Hereafter the people should make no mistake. The only men capable of governing the country are the high-browed editors of the yellow papers.

The yellow papers are standing together and resent any interference with their plans.

Shredded Biscuits
An article we have a large trade on and one that has great merit is Whole Wheat Shredded Biscuit. They are especially nice for invalids and people with weak stomachs. They can be digested easily and eaten with milk, tea or coffee are delicious. There are but few stores that can afford to keep this article but we sell such large quantities of farinaceous goods of all kinds that our trade in this article is large. We buy enough of it to sell it at a specially low price, 15 cents a package, two packages for 35 cents. Sanborn.

OUR INTERESTS IN SAMOA.

President McKinley Is Watching Them Keenly.

AMERICANS TO BE PROTECTED

United States Troops Will Be Mobilized at Hawaii, Ready for Instant Use in the Event of Trouble—May Be an End of the Protectorate.

Washington, Sept. 8.—The possibilities of international complications in both the Philippine and the Samoan islands have led the administration to evolve a new plan for using part of the volunteer army.

Hawaii is to be utilized as a mid-Pacific mobilization point for United States troops. There the government will send in the near future not less than 5,000, and probably as many as 10,000 men.

They will be permanently stationed at Honolulu and there drilled, organized, and kept in a high state of discipline.

For the reason that Hawaii is within comparatively easy distance of Manila and the Samoan islands, and that transports enough to carry this small army to either point can be cheaply and safely kept in the excellent harbors there, plans for the new movement will be based on the idea of permanency.

Gen. Merriam, under directions from the war department, will, upon his return, send not less than three regiments to Honolulu at once, these to be followed by others until at least from 5,000 to 10,000 soldiers are quartered in the newly annexed territory of the United States.

President McKinley and the secretary of war have had several discussions over the new plans. They agree that the present conditions demand this movement purely as a precautionary measure.

While the state department has not yet taken up the new complications sure to rise in Samoa because of the recent death of the king, it can not be long delayed.

There may be a dissolution of the joint protectorate over the islands heretofore existing through the agreement of the United States, Germany and Great Britain.

In this event there may be trouble; hence the decision of the government to make Hawaii a mid-Pacific stronghold.

Last Favor to Americans.

St. John's, N. F., Sept. 8.—The Newfoundland government has consented to allow the Gloucester refrigerator vessel, the Tiltid, to secure 5,000 barrels of fish bait in our west coast waters on condition that the owners of the vessel give a bond of \$10,000 to land the cargo in the United States, thus preventing the possibility of a portion being sold to the French. The colonial government has further impressed upon the owners the fact that this permission is granted as a matter of favor and not as a right and must not be construed into a precedent. No further concessions will be made until a settlement of the entire fisheries question is reached at the Quebec conference.
